- Provides roadmap and strategy guidance
- Includes 'start to finish' services for accountable care organizations and healthcare providers
- Leverages resources with 'real-life' healthcare experience and expertise
- Uses the Oracle EPM/BI platform to deliver scalable architecture
- Integrates easily with ERP systems and other sources
- Includes a full set of administrative tools for application management

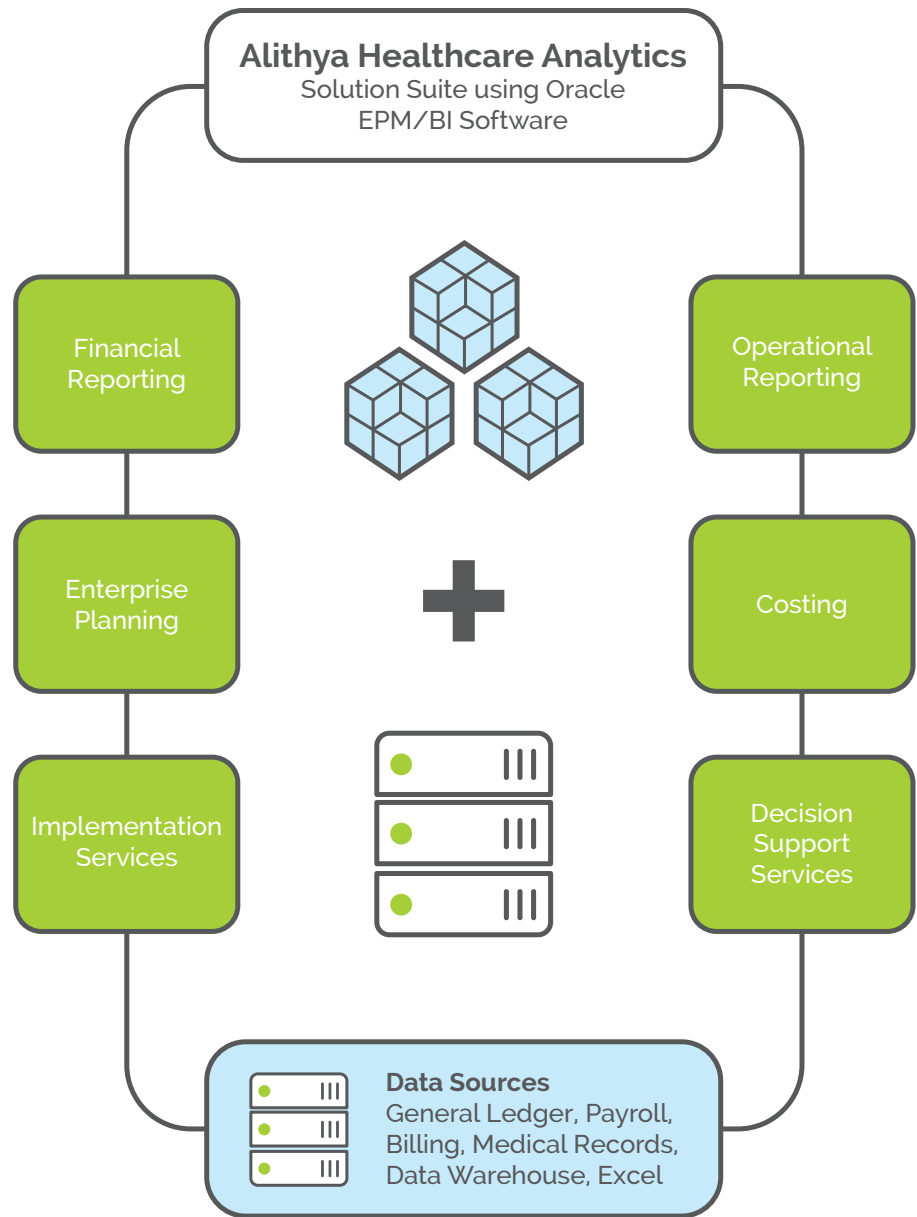

Alithya Healthcare Analytics

Alithya offers Accountable Care Organizations (ACOs) and other Healthcare Providers with a comprehensive solution to help solve fundamental needs such as financial reporting, operational analytics, decision support analytics, planning, and costing. The Alithya team has knowledgeable professionals with years of healthcare industry expertise. Key tenants of Alithya's Healthcare Analytics platform include:

- Revenue and Expense Planning for Provider Health System Facilities including hospitals, rehabilitation centers, long term care facilities, outpatient facilities, behavioral health facilities, clinical centers, home health care, physician clinics, and Foundations
- Integrated Driver-Based Planning Utilizing Common Core Metrics/Drivers such as Patient Days, Average Length of Stay (ALOS), Visits, Encounters, Procedures, Payor Mix, RVUs
- Compensation Planning by Employee, Position, and/or Job Code
- Decision Support Analytics by Patient Type (IP/OP), DRG, Financial Class/Payor, Physician, Zip Code, and Service Line
- Costing by patient grouping, service line, and physician with traceability to support clinical and operational decision-making

Key Benefits

- Supports efforts to improve quality of care through improved analytics and costing
- Increases visibility to management of key service areas and lines of business
- Improves short and long term budgeting and forecasting processes for department managers and FP&A
- Utilizes an agile technology and platform that increases the selfsufficiency of business users
- Facilitates the management of staff productivity, improves quality, and reduces costs of delivery
