

Planning for the Continuum of Care at Rutland Regional

Standardization
& Centralization

Integrated
Solution

Improved
Accuracy &
Efficiency

Using Enterprise Planning & Budgeting Cloud Service (EPBCS) to provide a state-of-the-art solution to support the annual budgeting process. The integrated solution includes a Workforce planning module, a weekly staff planning model, and driver-based revenue planning as well as operation expense planning. The solution delivers an efficient platform to quickly and accurately support the planning needs of the hospital.
